

**STRIX CASTANOPS.** *Str. disco fasciali castaneo, ad marginem saturatiore, et nigro circumdato; corpore supra alis caudique læte rufo-brunneis, plumis singulis fasciis latis saturatè brunneis, disspariter ornatis; capite humerisque maculis sparsis minutis albis; corpore infrà flavescenti-brunneo; lateribus colli corporisque guttis nigris sparsè ornatis; femoribus tibiisque flavo-brunneis pedibus flavescentibus; rostro flavo-fusco.*

Long. tot. 18 unc. ; rostri,  $2\frac{1}{4}$ ; alæ, 15; caudæ, 7; tarsi,  $3\frac{1}{2}$ .

Hab. In Terrâ Van Diemen.

This is the largest known species of the restricted genus *Strix*, of which the common *Barn Owl* is a typical example.

**STRIX CYCLOPS.** *Str. disco fasciali albo, venustè annulo saturatè brunneo, circumdato; corpore supra albo; dorso humerisque pallidè stramineis, maculis brunneis et albis lentiginosis; primariis, fasciis alternis stramineis brunneisque; pogoniis externis apicibusque lineis brunneis rectis, frequentibus, et retortis; caudâ albd fasciis brunneis; interstitiis albis brunneo crebrè guttatis, corpore infrâ albo, maculis brunneis; femoribus tarsisque albis; pedibus flavo-fuscis; rostro livido.*

Long. tot. 15 unc. ; rostri,  $1\frac{3}{4}$ ; alæ,  $11\frac{1}{2}$ ; caudæ,  $5\frac{1}{2}$ ; tarsi,  $2\frac{3}{4}$ .

Hab. In Novâ Cambriâ Australi.

This is one of the most beautiful species of the genus.

**STRIX DELICATULUS.** *Str. disco fasciali albo, margine stramineo circumdato; corpore supra pallidè cano-fusco, flavo tincto, notis nigrantibus et albidis intermixtis delicatulis frequentibusque ornato; alis pallidè fulvis, fasciis lineisque rectis retortis, pallide brunneis; primariis ad apicem guttâ albd notatis; caudâ rectricibus quoad colorem remiges fingentibus at guttâ apicali albd obscuriore; corpore infrâ albo; pectore lateribusque maculis brunnescentibus sparsè notatis; femoribus tibiisque albis; pedibus flavescentibus rostro livido.*

Long. tot. 14 unc. ; rostri,  $1\frac{3}{4}$ ; alæ, 11; caudæ, 4; tarsi,  $2\frac{1}{2}$ .

Hab. In Novâ Cambriâ Australi.

This species in some respects very closely resembles the common *British Owl*, *St. flammea*; but it has a longer bill, and is considerably smaller.
