**Subject:** RE: Seresto Petition Status

Since the petition requests EPA to consider cancelling these Seresto registrations based largely on the incidents we've received, our plan has been to wait for the science review to be complete this FY as Jenn stated. Then once we've determined if any further regulatory action is needed, we would then respond to the petition. We have not committed to a timeframe for the petition response yet, since it depends on the results of the incident review.

Thanks,  
Cathryn

Hi Ed, copying PRD since they have the lead on the petition.

In terms of the additional 6a2 data we received from Elanco, we're still on track to have the science review completed this fiscal year. We have an internal check in meeting on the 16<sup>th</sup> and can provide additional updates afterward if that works.

Best,  
Jenn

When do you think OPP will be able to provide the OCSPP-IO with an update on the response to the Seresto petition? We are starting to get some inquiries. Thanks!
