## **Re: CBD changes habitat, May 5**

Editor:

My family and I extend much appreciation to the great people of Idyllwild. We deeply enjoyed our time in Idyllwild surrounded by the wonders of the San Jacinto and Santa Rosa Mountains, which the Center will continue to watch and defend.

Even though we've moved our Inland SoCal office to Joshua Tree - (760) 366-2232 - we'll keep in touch and visit Idyllwild often.
