Re: Freedom of Information Act Request: Coal Moratorium Rollback

Dear FOIA Officer:

This is a request under the Freedom of Information Act, 5 U.S.C. § 552, as amended (“FOIA”), from the Center for Biological Diversity (“Center”), a non-profit organization that works to secure a future for all species hovering on the brink of extinction through science, law, and creative media, and to fulfill the continuing educational goals of its membership and the general public in the process.

Requested Records

The Center requests all of the following records from the U.S. Department of Interior (“Department”) from November 8, 2016 to the date of the agency’s search:

1. All communications with private (non-governmental) parties discussing and/or referencing Secretarial Order No. 3338 (the Discretionary Programmatic Environmental Impact Statement to Modernize the Federal Coal Program) and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced;

2. All communications with any state, county, and/or local government officials and/or agencies discussing and/or referencing Secretarial Order No. 3338 and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced;

3. All communications with elected officials discussing and/or referencing Secretarial Order No. 3338 and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced;
4. All communications with the Trump Presidential Transition Team discussing and/or referencing Secretarial Order No. 3338 and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced;

5. All communications with any other federal agencies discussing and/or referencing Secretarial Order No. 3338 and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced; and

6. All communications among and/or between Department of Interior staff and Department of Interior agency staff discussing or referencing Secretarial Order No. 3338 and/or its content, development, substance, and/or potential repeal, withdrawal, replacement, or modification, even if the Order is not explicitly discussed or referenced.

For this request, the term “all records” refers to, but is not limited to, any and all documents, correspondence (including, but not limited to, inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails, letters, notes, telephone records, telephone notes, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, telephone logs, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form.

This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request. If you or your office have destroyed or determine to withhold any records that could be reasonably construed to be responsive to this request, I ask that you indicate this fact and the reasons therefore in your response.

Under the FOIA Improvement Act of 2016, agencies are prohibited from denying requests for information under FOIA unless the agency reasonably believes release of the information will harm an interest that is protected by the exemption. FOIA Improvement Act of 2016 (Public Law No. 114-185), codified at 5 U.S.C. § 552(a)(8)(A).

Should you decide to invoke a FOIA exemption, please include sufficient information for us to assess the basis for the exemption, including any interest(s) that would be harmed by release. Please include a detailed ledger which includes:

1. Basic factual material about each withheld record, including the originator, date, length, general subject matter, and location of each item; and

2. Complete explanations and justifications for the withholding, including the specific exemption(s) under which the record (or portion thereof) was withheld and a full explanation of how each exemption applies to the withheld material.
Such statements will be helpful in deciding whether to appeal an adverse determination. Your written justification may help to avoid litigation.

In addition, if you determine that portions of the records requested are exempt from disclosure, we request that you segregate the exempt portions and mail the non-exempt portions of such records to my attention at the address below within the statutory time limit. 5 U.S.C. § 552(b).

The Center is willing to receive records on a rolling basis.

**FORMAT OF REQUESTED RECORDS**

Under FOIA, you are obligated to provide records in a readily-accessible electronic format and in the format requested. See, e.g., 5 U.S.C. § 552(a)(3)(B) (“In making any record available to a person under this paragraph, an agency shall provide the record in any form or format requested by the person if the record is readily reproducible by the agency in that form or format.”). “Readily-accessible” means text-searchable and OCR-formatted. See 5 U.S.C. § 552(a)(3)(B). Please provide all records in a readily-accessible, electronic .pdf format. Additionally, please provide the records either in (1) load-ready format with a CSV file index or excel spreadsheet, or if that is not possible; (2) in .pdf format, without any “portfolios” or “embedded files.” Portfolios and embedded files within files are not readily-accessible. Please do not provide the records in a single, or “batched”, .pdf file. We appreciate the inclusion of an index.

If you should seek to withhold or redact any responsive records, we request that you: (1) identify each such record with specificity (including date, author, recipient, and parties copied); (2) explain in full the basis for withholding responsive material; and (3) provide all segregable portions of the records for which you claim a specific exemption. 5 U.S.C. § 552(b). Please correlate any redactions with specific exemptions under FOIA.

**REQUEST FOR FEE WAIVER**

FOIA was designed to provide citizens a broad right to access government records. FOIA’s basic purpose is to “open agency action to the light of public scrutiny,” with a focus on the public’s “right to be informed about what their government is up to.” U.S. Dep’t of Justice v. Reporters Comm. for Freedom of Press, 489 U.S. 749, 773-74 (1989) (internal quotation and citations omitted). In order to provide public access to this information, FOIA’s fee waiver provision requires that “[d]ocuments shall be furnished without any charge or at a [reduced] charge,” if the request satisfies the standard. 5 U.S.C. § 552(a)(4)(A)(iii). FOIA’s fee waiver requirement is “liberally construed.” Judicial Watch, Inc. v. Rossotti, 326 F.3d 1309, 1310 (D.C. Cir. 2003); Forest Guardians v. U.S. Dept. of Interior, 416 F.3d 1173, 1178 (10th Cir. 2005).

The fee waiver amendments of 1986 were designed specifically to provide non-profit organizations such as the Center access to government records without the payment of fees. Indeed, FOIA’s fee waiver provision was intended “to prevent government agencies from using high fees to discourage certain types of requesters and requests,” which are “consistently associated with requests from journalists, scholars, and non-profit public interest groups.” Ettlinger v. FBI, 596 F.Supp. 867, 872 (D. Mass. 1984) (emphasis added). As one Senator
stated, “[a]gencies should not be allowed to use fees as an offensive weapon against requesters seeking access to Government information ... .” 132 Cong. Rec. S. 14298 (statement of Senator Leahy).

I. The Center Qualifies for a Fee Waiver.

Under FOIA, a party is entitled to a fee waiver when “disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the [Federal] government and is not primarily in the commercial interest of the requester.” 5 U.S.C. § 552(a)(4)(A)(iii). The Department’s FOIA regulations at 43 C.F.R. § 2.45(a) establish the same standard.

Thus, the Department must consider four factors to determine whether a request is in the public interest: (1) whether the subject of the requested records concerns “the operations or activities of the Federal government,” (2) whether the disclosure is “likely to contribute” to an understanding of government operations or activities, (3) whether the disclosure “will contribute to public understanding” of a reasonably-broad audience of persons interested in the subject, and (4) whether the disclosure is likely to contribute “significantly” to public understanding of government operations or activities. 43 C.F.R. § 2.48(a)(1) – (4). As shown below, the Center meets each of these factors.

A. The Subject of This Request Concerns “The Operations and Activities of the Government.”

The subject matter of this request concerns the operations and activities of the Department. This request asks for all agency records of communication with federal and non-federal entities, including private parties, state and local government officials, elected officials, other federal agencies, and among staff within the Department of Interior.

This FOIA will provide the Center and the public with crucial insight into the Department of Interior’s handling of the coal leasing program and programmatic environmental impact statement process under the new administration. It is clear that decisionmaking relating to Secretarial Order No. 3338, the federal coal leasing program, and its potential impacts to the human and non-human environment are specific and identifiable activities of the government, in this case the executive branch agency, the Department. Judicial Watch, 326 F.3d at 1313 (“[R]easonable specificity is all that FOIA requires with regard to this factor”) (internal quotations omitted). Thus, the Center meets this factor.

B. Disclosure is “Likely to Contribute” to an Understanding of Government Operations or Activities.

The requested records are meaningfully informative about government operations or activities and will contribute to an increased understanding of those operations and activities by the public.

Disclosure of the requested records will allow the Center to convey to the public information about the administration’s proposed changes to Secretarial Order No. 3338. Once the
information is made available, the Center will analyze it and present it to its 1.2 million members and online activists and the general public in a manner that will meaningfully enhance the public’s understanding of the Department’s handling of the coal leasing program and programmatic environmental impact statement process under the new administration. It is clear that decisionmaking relating to Secretarial Order No. 3338, the federal coal leasing.

Thus, the requested records are likely to contribute to an understanding of the Department’s operations and activities.

C. Disclosure of the Requested Records Will Contribute to a Reasonably Broad Audience of Interested Persons’ Understanding of the Trump Administration’s Proposed Changes to Secretarial Order No. 3338.

The requested records will contribute to public understanding of how the administration’s proposed changes to Secretarial Order No. 3338 will influence potential future federal coal leasing, impact greenhouse gas pollution and climate change, impacts relating to mercury, selenium, and other chemical pollution, impacts relating to air and water pollution, impacts relating to human health, impacts to wildlife habitat, including endangered species and their critical habitat, and impacts to communities and economic systems.

Government decision making concerning Secretarial Order No. 3338, the federal coal leasing program, and its potential impacts to the human and non-human environment generally, and specifically the Department’s handling of the coal leasing program and programmatic environmental impact statement process under the Trump Administration, are areas of interest to a reasonably broad segment of the public. The Center will use the information it obtains from the disclosed records to educate the public at large about the impacts of potential future federal coal leasing. See W. Watersheds Proj. v. Brown, 318 F.Supp.2d 1036, 1040 (D. Idaho 2004) (“...finding that WWP adequately specified the public interest to be served, that is, educating the public about the ecological conditions of the land managed by the BLM and also how ...management strategies employed by the BLM may adversely affect the environment.”).

Through the Center’s synthesis and dissemination (by means discussed in Section II, below), disclosure of information contained and gleaned from the requested records will contribute to a broad audience of persons who are interested in the subject matter. Ettlinger v. FBI, 596 F.Supp. at 876 (benefit to a population group of some size distinct from the requester alone is sufficient); Carney v. Dep’t of Justice, 19 F.3d 807, 815 (2d Cir. 1994), cert. denied, 513 U.S. 823 (1994) (applying “public” to require a sufficient “breadth of benefit” beyond the requester’s own interests); Cmty. Legal Servs. v. Dep’t of Hous. & Urban Dev., 405 F.Supp.2d 553, 557 (E.D. Pa. 2005) (in granting fee waiver to community legal group, court noted that while the requester’s “work by its nature is unlikely to reach a very general audience,” “there is a segment of the public that is interested in its work”).

Indeed, the public does not currently have an ability to easily evaluate the requested records, which concern the government’s decisionmaking process regarding Secretarial Order No. 3338 and the impacts of potential future federal coal leasing that are not currently in the public domain. See Cmty. Legal Servs. v. HUD, 405 F.Supp.2d 553, 560 (D. Pa. 2005) (because
requested records “clarify important facts” about agency policy, “the CLS request would likely shed light on information that is new to the interested public.”). As the Ninth Circuit observed in *McClellan Ecological Seepage Situation v. Carlucci*, 835 F.2d 1282, 1286 (9th Cir. 1987), “[FOIA] legislative history suggests that information [has more potential to contribute to public understanding] to the degree that the information is new and supports public oversight of agency operations… .”

Disclosure of these records is not only “likely to contribute,” but is certain to contribute, to public understanding of the administration’s proposed changes to Secretarial Order No. 3338. The public is always well served when it knows how the government conducts its activities, particularly matters touching on legal questions. Hence, there can be no dispute that disclosure of the requested records to the public will educate the public about the impacts of potential future federal coal leasing.

**D. Disclosure is Likely to Contribute Significantly to Public Understanding of Government Operations or Activities.**

The Center is not requesting these records merely for their intrinsic informational value. Disclosure of the requested records will significantly enhance the public’s understanding of the administration’s proposed changes to Secretarial Order No. 3338, as compared to the level of public understanding that exists prior to the disclosure. Indeed, public understanding will be significantly increased as a result of disclosure because the requested records will help reveal more about impacts resulting from potential future federal coal leasing.

The records are also certain to shed light on the Department’s compliance with federal environmental laws and regulations. Such public oversight of agency action is vital to our democratic system and clearly envisioned by the drafters of the FOIA. Thus, the Center meets this factor as well.

**II. The Center has a Demonstrated Ability to Disseminate the Requested Information Broadly.**

The Center is a non-profit organization that informs, educates, and counsels the public regarding environmental issues, policies, and laws relating to environmental issues. The Center has been substantially involved in the activities of numerous government agencies for over 25 years, and has consistently displayed its ability to disseminate information granted to it through FOIA.

In consistently granting the Center’s fee-waivers, agencies have recognized: (1) that the information requested by the Center contributes significantly to the public’s understanding of the government’s operations or activities; (2) that the information enhances the public’s understanding to a greater degree than currently exists; (3) that the Center possesses the expertise

---

1 In this connection, it is immaterial whether any portion of the Center’s request may currently be in the public domain because the Center requests considerably more than any piece of information that may currently be available to other individuals. *See Judicial Watch*, 326 F.3d at 1315.
to explain the requested information to the public; (4) that the Center possesses the ability to disseminate the requested information to the general public; (5) and that the news media recognizes the Center as an established expert in the field of imperiled species, biodiversity, and impacts on protected species. The Center’s track record of active participation in oversight of governmental activities and decisionmaking, and its consistent contribution to the public’s understanding of those activities as compared to the level of public understanding prior to disclosure are well established.

The Center intends to use the records requested here similarly. The Center’s work appears in more than 2,500 news stories online and in print, radio and TV per month, including regular reporting in such important outlets as The New York Times, Washington Post, and Los Angeles Times. Many media outlets have reported on the impacts resulting from federal coal leasing programs, utilizing information obtained by the Center from federal agencies including the Department. In 2016, more than 2 million people visited the Center’s extensive website, viewing a total of more than 5.2 million pages. The Center sends out more than 277 email newsletters and action alerts per year to more than 1.2 million members and supporters. Three times a year, the Center sends printed newsletters to more than 52,343 members. More than 199,000 people have “liked” the Center on Facebook, and there are regular postings regarding the impacts from federal coal leasing. The Center also regularly tweets to more than 49,700 followers on Twitter. The Center intends to use any or all of these far-reaching media outlets to share with the public information obtained as a result of this request.

Public oversight and enhanced understanding of the Department’s duties is absolutely necessary. In determining whether disclosure of requested information will contribute significantly to public understanding, a guiding test is whether the requester will disseminate the information to a reasonably-broad audience of persons interested in the subject. Carney v U.S. Dept. of Justice, 19 F.3d 807 (2nd Cir. 1994). The Center need not show how it intends to distribute the information, because “[n]othing in FOIA, the [agency] regulation, or our case law require[s] such pointless specificity.” Judicial Watch, 326 F.3d at 1314. It is sufficient for the Center to show how it distributes information to the public generally. Id.

III. Obtaining the Requested Records is of No Commercial Interest to the Center.

Access to government records, disclosure forms, and similar materials through FOIA requests is essential to the Center’s role of educating the general public. Founded in 1994, the Center is a 501(c)(3) nonprofit conservation organization (EIN: 27-3943866) with more than 1.2 million members and online activists dedicated to the protection of endangered and threatened species and wild places. The Center has no commercial interest and will realize no commercial benefit from the release of the requested records.

IV. Conclusion

For all of the foregoing reasons, the Center qualifies for a full fee-waiver. We hope that the Department will immediately grant this fee waiver request and begin to search and disclose the requested records without any unnecessary delays.
If you have any questions, please contact me at (971) 717-6409 or foia@biologicaldiversity.org. All records and any related correspondence should be sent to my attention at the address below.
