July 29, 2022

The Honorable Joseph R. Biden Jr.
President
1600 Pennsylvania Ave, N.W.
Washington, DC 20001

The Honorable Chuck Schumer
Senate Majority Leader
Room S-221, The Capitol
Washington, D.C. 20510

Re: Hold the line against fossil fuel expansion

Dear President Biden and Majority Leader Schumer,

As frontline communities and organizations with millions of members and supporters, we thank you for your tireless efforts to secure a climate deal with meaningful renewable energy investments. At the same time, we respectfully urge you to reject any handouts to the fossil fuel industry. Put simply: you cannot address the climate emergency by sacrificing communities, expanding fossil fuel production and embracing fossil fuel industry scams like carbon capture, fossil fuel hydrogen, and carbon offsets.

Any approval of new fossil fuel projects or fast-tracking of fossil fuel permitting is incompatible with climate leadership. Oil, gas and coal production are the core drivers of the climate and extinction crises. There can be no new fossil fuel leases, exports, or infrastructure if we have any hope of preventing ever-worsening climate crises, catastrophic floods, deadly wildfires, and more—all of which are ripping across the country as we speak. We are out of time. Therefore, we’re calling on you to fulfill your promise to lead on climate, starting with denying approvals for the Mountain Valley Pipeline, rejecting all new federal fossil fuel leases onshore, in the Gulf of Mexico, in Alaska, and everywhere else, and preventing any fast-tracked permits for fossil fuel projects.

Permitting new fossil fuel projects will further entrench us in a fossil fuel economy for decades to come – and constitutes a violent betrayal of your pledge to combat environmental racism and destruction. Today’s high gasoline and energy prices cannot be solved with promises of future oil and gas production. Climate chaos harms every person in America, but our communities bear the brunt of the deadly impacts of the toxic fossil fuel industry: primarily Indigenous, Black, Latinx, AAPI and other communities of color, as well as low-wealth communities. Young people, women, and so many others that turned out to elect you and gave you your mandate to govern need climate hope, not climate setbacks. New fossil fuel projects will also lock workers into a dying industry and delay the growth in sectors that will support jobs of the future.

Critically, none of these negotiations affect the need for President Biden to immediately declare a climate emergency and use his existing authority to reject fossil fuel projects. Declaring a
climate emergency will unlock President Biden’s full set of powers to not only release Defense funding to build renewable and just energy systems, but also confront fossil fuels head-on by stopping crude oil exports. With non-emergency powers, President Biden can reject new oil and gas leases, and deny all fossil fuel infrastructure that harms countless communities across the country. Unleashing executive powers should be pursued in concert with—and not instead of—passing critical climate legislation, and vice versa.

We respectfully implore you to hold the line against any new fossil fuel projects, reject handouts to oil and gas companies, and use every tool available to advance a truly just, renewable energy future that does not sacrifice our communities.

Sincerely,
