

FALLBROOK LAND CONSERVANCY

Founded in 1988

April 28, 2011

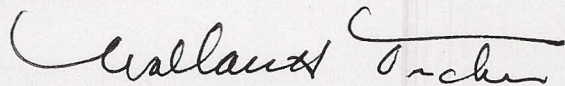

Mr. Rex Wait
The Nevada Hydro Company, Inc.
2416 Cades Way
Vista, CA 92083

Subject: Transmission Lines and Substation for Talega-Escondido/ Valley-Serrano 500kV Interconnect Project on Margarita Peak Preserve

Dear Mr. Wait:

After further review of the subject project and a discussion of the pros and cons of its impacts, the Fallbrook Land Conservancy Board of Directors has determined that it is not in the best interests of our organization to proceed with the project. The Board therefore voted to withdraw the Margarita Peak Preserve as a potential site for the substation.

Sincerely,

Wallace Tucker
Chairman, Fallbrook Land Conservancy
