Washington, DC 20426

RE: 18 Navajo Nation Chapter and Agency Resolutions Opposing Project No. 15233-000, Project No. 15234-000, and Project No. 15235-000

Dear Secretary Bose and Other Responsible Officials:

Intervenors Tó Nizhóní Ání, Diné Citizens Against Ruining our Environment, and Center for Biological Diversity hereby provide notice to FERC of 18 resolutions of Navajo Nation chapters and agencies, each passed in April, May, and June 2023, “opposing the proposal, funding and development of the North, East, and South Black Mesa Pumped Storage Projects.” Intervenors provide 17 of these as exhibits for the administrative records of Project Nos. 15233-000, 15234-000, 15235-000, as follows:

Exhibit 1: Resolution DYRC-23-04-001 of the Dził Yíjiin Regional Council
Exhibit 2: Resolution HRC 2023/04-05 of the Hardrock Chapter
Exhibit 3: Resolution of the Chinle Agency Grazing Committee
Exhibit 4: Resolution PIN-23-28 of the Pinon Chapter
Exhibit 5: Resolution WC-23-86 of the Whippoorwill Chapter
Exhibit 6: Resolution RRCH 2023-0416-10 of the Rough Rock Chapter
Exhibit 7: Resolution BMC-23-04-058 of the Black Mesa/Kits’ili Chapter
Exhibit 8: Resolution KY23-12-04 of the Kayenta Chapter
Exhibit 9: Resolution FLC-23-04-001 of the Forest Lake Chapter
Exhibit 10: Resolution of the District 4 Grazing Committee
Exhibit 11: Resolution TL-05-08A-23 of the Tolani Lake Chapter
Exhibit 12: Resolution LC05152023C of the LaChee Chapter
Exhibit 13: Resolution DCHMAY-072-2023 of the Dennehotso Chapter
Exhibit 14: Resolution BA-05-042-23 of the Bodaway/Gap Chapter
Exhibit 15: Resolution CO-05-030-23 of the Coppermine Chapter
Exhibit 16: Chapter Meeting Notes Regarding Bird Spring Chapter Resolution
Exhibit 17: Chapter Meeting Notes Regarding Navajo Mountain Chapter Resolution

Note that the Western Agency Grazing Committee has also passed a resolution similar to those listed above and appended below, but a copy of that resolution is not appended to this letter. You should contact the Agency to obtain a copy of its resolution, and to hear the Agency’s specific concerns with the proposed projects.

Thank you for your consideration.

Sincerely,

Adrian Herder

CC: The Honorable Dr. Buu Nygren, Navajo Nation President
Navajo Nation Department of Justice
Navajo Nation Resource and Development Committee
RESOLUTION OF THE DZIL YIJIIN REGIONAL COUNCIL

RESOLUTION NO. DYRC-23-04-001

Supporting local residents and traditional land users of Black Mesa opposing the proposal, funding and development of the North, East, and South Black Mesa pumped storage projects to construct nine (9) reservoirs with powerhouses using 450,000 acreage of feet water

WHEREAS:

1. The Dzil Yijiin Regional Council is recognized by the Resources and Development Committee (RDC) of the Navajo Nation per Legislation #350-11 and RDCJN-33-14 (June 3, 2014; and
2. The Dzil Yijiin Regional Council is to represent and act on behalf of the Navajos residing in the Dzil Yijiin Region, including Pinon, Hardrock, Forest Lake, Black Mesa, Whipplemillo, Blue Gap/Tachee and Low Mountain Chapters and includes areas of NPL and HPL lands; and
3. The Dzil Yijiin Regional Council supports traditional land use on Black Mesa consistent with the health of the land, people, non-human relatives, and Nahaszaan doo Yadilhil Bitsaadee Beehaz’aanii-Dine Natural Law (1 N.N.C.205); and
4. The Dzil Yijiin Regional Council recognizes that decades of coal mining has damaged the health and productivity of Black Mesa’s land, groundwater, and springs that people and non-human relatives depend on; and
5. The Dzil Yijiin Regional Council recognizes that restoring Black Mesa’s land to pre-mining conditions is a top priority, and oppose further industrial use of the Navajo Nation water, including groundwater beneath Black Mesa; and ; and
6. The Dzil Yijiin Regional Council understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built would construct new reservoirs, pipelines, powerlines and other energy infrastructure atop Black Mesa; and
7. The Dzil Yijiin Regional Council understands, acknowledge and recognizes that the proposed Black Mesa North, East, and South Pumped Storage, if built, would require 450,000 acre feet of water to begin operation and would require additional water to continue operation for 100 years; and
8. The Dzil Yijiin Regional Council understands, acknowledge and recognizes that water required for proposed Black Mesa North, East, and South Pumped Storage, if built, would acknowledge and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Project would come from the San Juan River, the Colorado River or Black Mesa groundwater; and
9. The Dzil Yijiin Regional Council understands, acknowledge and recognizes that water required for proposed Black Mesa North, East, and South Pumped Storage, if built, would destroy land
and displace traditional land uses on Back Mesa, inconsistent with health of land, people, non-human relatives and Nahasdzaan doo Yadilhil Bitsaadee Beheaz’aanii-Dine Natural Law (1 N.N.C.205).

NOW THEREFORE BE IT RESOLVED THAT:

The Dzil Yijiin Regional Council hereby supports local residents and traditional land users of Black Mesa opposing the proposal, funding and development of the North, East, and South Black Mesa pumped storage projects to construct nine (9) reservoirs with powerhouses using 450,000 acreage of feet water

CERTIFICATION

We, hereby certify that the foregoing resolution was discussed and duly considered by the Dzil Yijiin Regional Council at a duly called meeting via hybrid, Navajo Nation (Arizona) at which a quorum was present and that the same was passed by a vote of 13 in favor, 0 opposed and 15 abstained on this 6th day of April, 2023.

RESOLUTION OF THE HARDROCK CHAPTER: HRC 2023/04-05

SUPPORTING LOCAL RESIDENTS AND TRADITIONAL LAND USERS OF BLACK MESA OPPOSING THE PROPOSAL, FUNDING, AND DEVELOPMENT OF THE NORTH, EAST, AND SOUTH BLACK MESA PUMPED STORAGE PROJECTS

WHEREAS:

1. The Hardrock Chapter is a recognized chapter of the Navajo Nation Government, pursuant to Navajo National Council Resolution CAP-34-98, known as the Navajo Nation Local Governance Act and herein codified in Title Twenty-six (26) of the Navajo Nation Code; and

2. Title Twenty-six (26) of the Navajo Nation Code allows Hardrock Chapter to make decisions over local matters; and

3. The Hardrock Chapter supports traditional land use on Black Mesa consistent with the health of land, people, non-human relatives, and Nahasdzáán dóó Yádíilhil Bitsiq’deeg Beenahaz’áamii—Diné Natural Law (1 N.N.C. § 205); and

4. The Hardrock Chapter recognizes that decades of coal mining has damaged the health and productivity of Black Mesa’s land, groundwater, and springs that people and non-human relatives depend on; and

5. The Hardrock Chapter recognizes that restoring Black Mesa’s land to pre-mining conditions is a top priority, and opposes further industrial use of the Navajo Nation water, including groundwater beneath Black Mesa; and

6. The Hardrock Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would construct new reservoirs, pipelines, power lines, and other energy infrastructure atop Black Mesa; and

7. The Hardrock Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would require 450,000 acre-feet of water to begin operations, and would require additional water to continue operations; and

8. The Hardrock Chapter understands, acknowledges, and recognizes that water required for the proposed Black Mesa North, East, and South Pumped Storage Projects would come from the San Juan River, the Colorado River, or Black Mesa groundwater; and

9. The Hardrock Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would destroy land and displace traditional land uses on Black Mesa, inconsistent with the health of land, people, non-human relatives, and Nahasdzáán dóó Yádíilhil Bitsiq’deeg Beenahaz’áamii—Diné Natural Law (1 N.N.C. § 205)

10. The Hardrock Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would, like coal
mining, use Black Mesa’s land and water to create and export electricity and profits to far away cities; and

11. The Hardrock Chapter understands, acknowledges, and recognizes that preliminary permit applications for the Black Mesa North, East, and South Pumped Storage Projects were filed with the Federal Energy Regulatory Commission without consulting with or consent from the Hardrock Chapter, residents, and local land users; and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Hardrock Chapter opposes the proposal, funding, and development of the Black Mesa North, East, and South Pumped Storage Projects, in whole or in part.

CERTIFICATION

We, hereby, certify that the foregoing resolution was duly considered by the Hard Rock Chapter at a duly called meeting in Hardrock, Navajo Nation, Arizona, at which a quorum of Chapter members was present and that the same was passed by a voted 5 in favor, 0 opposed and / abstained this 7th day of April, 2023.

RESOLUTION OF THE WHIPPOORWILL CHAPTER

WC-23-86

WHEREAS:

1. The Resources and Development Committee, pursuant to Legislation RDCD-83-14 certified Whippoorwill Chapter’s Five Management System Policies and Procedures and pursuant to 2 N.N.C., §501 (B) (2) (d), 26 N.N.C. §102 and CO-45-12 Section 5(B), upon recommendation by Auditor General’s office, further supported the certification, AND
2. Pursuant to Local Governance Act, 26, N.N.C. § 101, et seq. to properly administer, to provide accountability in the Five Personnel and Property Management, and consistent with Auditor General’s Memorandum dated September 9, 2014, AUDIT REPORT No. 14-24, AND
3. The Whippoorwill Chapter recognizes that decades of coal mining have damaged the health and productivity of Black Mesa’s land, groundwater, and springs that people and wildlife depend on in restoring Black Mesa’s land to pre-mining conditions. Restoration and Reclamation have been a top priority and the land has been in reclaiming process; and
4. The Whippoorwill Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built would require 450,000-acre ft. to construct new reservoirs, pipelines, power lines, and other energy infrastructure atop Black Mesa and surrounding communities which definitely alter the environmental ecological system and destroy the fundamental connection with the land and tradition; Nahasdzáán dóó Yádíilhil Bítseqqé Béehaz’óóinii–Diné Natural Law (1 N.N.C. § 205) and
5. This acknowledges, and recognizes an amount of water required for the proposed Black Mesa North, East, and South Pumped Storage Projects would come from the San Juan River, the Colorado River, or Black Mesa groundwater and this action will impact the “laws of the Water,” and
6. This proposed project will re-open old wounds to Black Mesa land and water, just for the purpose to export electricity to far away cities and profit from Navajo Nation; and

7. The Whippoorwill Chapter understands, acknowledges, and recognizes that preliminary permit applications for the Black Mesa North, East, and South Pumped Storage projects were filed with the Federal Energy Regulatory Commission without consulting with or consent from the residents, and local land users.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Whippoorwill Chapter hereby supports local residents and traditional land users of Black Mesa and surrounding community opposing the proposal, funding, and development of the North, East, and South Black Mesa pumped storage projects and requesting Navajo Nation president Buu Nygren and the Navajo Nation council to oppose the preliminary permit applications of the storage pumped project filed with the federal Energy Regulatory Commission.

2. The Whippoorwill Chapter brings forth the Navajo Nation Sovereignty Status as recognized in the Treaty of 1868 with the United States Congress and definitely will create a liability for Navajo Nation and impact the Water Right Cases and further impact our Sovereign privileges.

3. The expected impact of the surrounding Chapters, request the Navajo Nation Department of Justice to submit a Letter of Objection to Federal Energy Regulatory Commission to stop this massive non-realization project.

CERTIFICATION

We, the undersigned certify the foregoing resolution was presented to the Whippoorwill Chapter at a duly called meeting at Whippoorwill, Arizona, USA at which a quorum was present that same day and was passed by a vote 8 in FAVOR, 0 OPPOSED, and 5 ABSTAINED on the 12 day of April 2023.

Germaine Simonson, Council Delegate
Resolution No: KY23-12-04

Supporting the Local Residents and Traditional Land Users of Black Mesa, and Opposing the Proposal, Funding, and Development of the North, East and South Black Mesa Pumped Storage Projects.

WHEREAS:

1. The Kayenta Chapter is a certified chapter pursuant to Navajo Nation (NN) Council Resolution CAP-34-98, known as the Navajo Nation Local Governance Act (26 N.N.C § 1 et seq.); and is authorized to make decisions over local matters, including land use management; and

2. The Kayenta Chapter acknowledges its responsibility and duty to safeguard the health of our land, our people and its native wildlife and plant species for the sake of our children and grandchildren yet to be born, all in accordance and in compliance with our traditional law, Nahasdzání dóló Yádíilhil Bitsáqádeeg Beenahaz’ámii — Diné Natural Law (1 N.N.C. § 205); and

3. The Kayenta Chapter recognizes that decades of strip mining for coal have damaged the health and productivity of the sacred lands, groundwater and springs located on Black Mesa, that our people and non-human relatives depend on, and this extensive damage has not been adequately addressed and remedied; and

4. The Kayenta Chapter recognizes that restoring Black Mesa land and its resources to pre-mining conditions is a top priority, and opposes further industrial development and use of the Navajo Nation’s pristine waters, including the groundwater and aquifer beneath Black Mesa; and

5. The Kayenta Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would require 450,000 acre feet of water to begin operations, and would require additional water to continue operations; and

6. The Kayenta Chapter understands, acknowledges, and recognizes that water required for the proposed Black Mesa North, East, and South Pumped Storage Projects would come from the San Juan River, the Colorado River and/or Black Mesa groundwater and the Navajo Aquifer; and

7. The Kayenta Chapter understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would, like coal strip mining, use Black Mesa’s land and water to create and export electricity primarily for use at far away cities and for profit of investors far from the Navajo Nation; and

8. The Kayenta Chapter understands, acknowledges, and recognizes that preliminary permit applications for the Black Mesa North, East, and South Pumped Storage Projects were filed with the Federal Energy Regulatory Commission without first consulting with
nor obtaining prior consent from the Kayenta Chapter’s voting members, residents and
local lands users of Black Mesa; and

9. The Kayenta Chapter understands, acknowledges, and recognizes that the proposed
Black Mesa North, East, and South Pumped Storage Projects, if built, would destroy land
and displace traditional land uses on Black Mesa, inconsistent with the health of land,
people, non-humans relatives, and Nahasdzáán dóó Yáádilhii Bitsį́į́ Béenahaz’áanii — Diné
Natural Law (1 N.N.C. § 205).

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Kayenta Chapter Hereby Opposes the proposal, funding, and development of the Black
Mesa North, East and South Pumped Storage Projects, in whole or in part, for the protection of
the sacred lands, groundwater, springs, resources, and native species located on Black Mesa;
and the tribal members’ traditional land uses.

2. The Kayenta Chapter further authorizes all its Chapter Officials, Administration, and current
and future Honorable Council Delegate to take all actions necessary to fulfill the intent and
purpose of this resolution.

CERTIFICATION

We, hereby, certify that the foregoing resolution was duly considered by the Kayenta Chapter at
a duly called meeting in KAYENTA, Navajo Nation, Arizona; at which a quorum was present
and that the same was passed by a vote of 20 in favor, 01 Opposed, and 04 abstaining this 19th
day of April, 2023.

RESOLUTION OF THE DISTRICT FOUR GRAZING COMMITTEE

SUPPORTING LOCAL RESIDENTS AND TRADITIONAL LAND USERS OF BLACK MESA
OPPOSING THE PROPOSAL, FUNDING, AND DEVELOPMENT OF THE NORTH, EAST,
AND SOUTH BLACK MESA PUMPED STORAGE PROJECTS

WHEREAS:

1. Pursuant to Navajo Nation Council Resolution CAP-38-98, the District Grazing Committee's Plan of Operation is codified in Navajo Nation Code Title 3, Chapter 5, Subchapter 5, Article 3, §871 et. Seq. giving authority and duties to the District Grazing Committee to conduct business and regulate Grazing and Livestock on Navajo Land; and

2. Pursuant to CAP-34-90, the Navajo Nation Council approved the Navajo Nation Local Governance Act (LGA) that allows Navajo Nation Chapters to make decisions over local matters; and

3. Pursuant to NNC Title 3, Chapter 5, Subchapter 5, Article §878, The District Grazing Committees provide services to Navajo Stockman and Land Users; and

4. The District Four Grazing Committee is hereby continued as the administrative body within the Navajo Nation Government with the primary responsibility of managing rangelands, livestock issues, enforcing the Navajo Nation Grazing Regulations, and other related issues on the Navajo Partition Land; and

5. The District Four Grazing Committee supports traditional land use on Black Mesa consistent with the health of land, people, non-human relatives, and Nahasdzáán dóó Yádilhii Bitsąądeę Beeházáanii–Diné Natural Law (1 N.N.C. § 205); and

6. The District Four Grazing Committee recognizes that decades of coal mining has damaged the health and productivity of Black Mesa’s land, groundwater, and springs that people and non-human relatives depend on; and

7. The District Four Grazing Committee recognizes that restoring Black Mesa’s land to pre-mining conditions is a top priority, and opposes further industrial use of the Navajo Nation water, including groundwater beneath Black Mesa; and

8. The District Four Grazing Committee understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would construct new reservoirs, pipelines, power lines, and other energy infrastructure atop Black Mesa; and
9. The District Four Grazing Committee understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would require 450,000 acre-feet of water to begin operations and would require additional water to continue operations for 100 years; and

10. The District Four Grazing Committee understands, acknowledges, and recognizes that water required for the proposed Black Mesa North, East, and South Pumped Storage Projects would come from the San Juan River, the Colorado River, or Black Mesa groundwater; and

11. The District Four Grazing Committee understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would destroy land and displace traditional land uses on Black Mesa, inconsistent with the health of land, people, non-human relatives, and Nahasdzáán dóó Yáditihít Bitsąądeę́ Beehaz’aanii–Diné Natural Law (1 N.N.C. § 205).

12. The District Four Grazing Committee understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would, like coal mining, use Black Mesa’s land and water to create and export electricity and profits to far away cities; and

13. The District Four Grazing Committee understands, acknowledges, and recognizes that the proposed Black Mesa North, East, and South Pumped Storage Projects, if built, would destroy land and displace traditional land uses on Black Mesa, inconsistent with the health of land, people, non-human relatives, and Nahasdzáán dóó Yáditihít Bitsąądeę́ Beehaz’aanii–Diné Natural Law (1 N.N.C. § 205).

14. The District Four Grazing Committee understands, acknowledges, and recognizes that preliminary permit applications for the Black Mesa North, East, and South Pumped Storage Projects were filed with the Federal Energy Regulatory Commission without consulting with or consent from the ______ Chapter, residents, and local land users; and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The District Four Grazing Committee opposes the proposal, funding, and development of the Black Mesa North, East, and South Projects and requesting Navajo Nation President Buu Nygren and the 25th Navajo Nation Council to oppose the preliminary permit applications for the Black Mesa Pump Storage Project filed with the Federal Energy Regulatory Commission.

CERTIFICATION

I hereby certify the foregoing resolution was considered by the District 4 Grazing Committee at a duly called meeting in Pinon, Navajo Nation, [Arizona] at which a quorum was present and that
the same was passed by a vote of 5 in favor 0 opposed and 0 abstained this 3rd day of May 2023.

8. New Business

A. TT-06-04-2023 – REQUESTING AND SUPPORTING THE EMPLOYMENT OF CARLOS PADDOCK AS AN OPERATOR FOR THE TSIDI TO’II (BIRDSPRING) CHAPTER GRADER UNDER THE PUBLIC EMPLOYMENT PROGRAM.

Motion: Marie Barton Seconded: Jeannie James App 12 Opp 0 Abs 6

Marie Barton – is asking how far BIA will work on the road and can N2 be repaired? She had previously asked for the road to her home to be repaired.

Dolly Wagoner – Chapter has an MOA with BIA to repair 5 roads N2, N71, these are the only roads that can be graded due to moa agreement to bia. If you want the road to your home to be repaired, then you must rent the grader equipment. Grader can only be used by hired certified operators. LSCS does request to have bus routes to be maintained and this is due to the school purchasing tires for chapter graders. This agreement is for the bus routes only. Chapter also works with Senior Center and repair roads so they can safely repair roads they utilize. Other than that, for roads to homes and homesite lease the grader must be rented. Due to the cost of maintenance of grader and purchase of fuel cost.

Virgil Long – Someone needs to be out there to watch how he performs his job because he is not maintaining the road properly. He just blades the top and doesn’t put the sand from the side back on the road. So, the residents need to safely travel this road and currently don’t maintain the road properly.

Sam McCabe – During the meeting at TA he asked and was told that Road departments were given ARPA monies.

Mitzi Begay – Those ARPA monies are not to maintain side roads and only for new road construction, so those funds are already allocated.

Sam McCabe – there are roads that need to be maintained and could cause road hazards on certain roads.

Harry Wagoner – Yes, BIA does maintain these side roads to remove sand off the fences and side roads and no one can just go in there and grade and maintain. We can notify BIA to do repairs.

Marie Barton – Does the county maintain any of these roads?

Harry Wagoner – NDOT goes around and grades only the roads that are listed on their projects. There is no longer a BIA Road committee.

?? – in the year 2000 the BIA was done away with so what does that mean.

Sam McCabe – Does BIA and NDOT can they be invited to the chapter to inform the community about their processes and talk about their process and road plans.

?? – she agreed to have the roads department come to the chapter to get informed.

Harry Wagoner – We can set up meetings here at chapter and post on social media and here at chapter.

B. TT-06-05-2023 – REQUESTING TSIDI TO’II CHAPTER TO APPROVE AND AUTHORIZE A BUDGET OF $2,112.19 FOR FY 2023 BRANDING PROJECT FOR TSIDI TO’II PERMITTEES.

Motion: Alice McCabe Seconded: Marie Barton App 13 Opp 0 Abs 6

Steven Wagoner – he requested this resolution to hire 2 branding crews to start branding on July 22, 2023, and end in August 2023. If you start branding too early, you end up having issues with little calves and then the crew would have to come back and brand the newborn calves so to save time they are starting a little later in the summer. The two crews hired have their own horses, trucks, and trailers. This Saturday Mr. Wagoner is going with 2 workers to Padre Ranch to attend a seminar on branding and giving shots and show
how cattle should be handled. There should be about 200 heads of cattle to be branded to show those who show up for the seminar.

C. **TT-06-06-2023** – APPROVE AND ACCEPT THE TSIDI TO’II MAY 2023 REVENUE IN THE AMOUNT OF $2,208.20.

Motion: Alice McCabe  Seconded: Marie Barton  App 14 Opp 0 Abs 7

Dolly Wagoner – explained the purpose of this resolution. This is revenue collected by chapter by selling water, renting chapter, xerox copies and other revenue collected. These funds are redistributed back into chapter funds in the general fund account. The largest account we have to pay is to NTUA and that is where a majority of these funds are put back into. The deposits paid are at times not given back and are held for cleaning supplies and put back into chapter accounts.

Sam McCabe – when the chapter is rented and deposit is paid, when chapter is cleaned the deposit is given back.

Harry Wagoner – the deposit is given back is chapter is left in good condition. But if there are issues then deposit is held and used for repairs.

Sam McCabe – what about the trash?

Harry Wagoner – The renters need to take their trash.

Motion: Virgil Long  Seconded: Daraina Jackson  App 13 Opp 0 Abs 8

Adrian Herder, Project Lead for Campaign – Did presentation on the resolution their organization presented. This project is being proposed by Nature & People First Arizona, filed 11/7/2022, Federal Agency, Location on the Navajo Nation. This is a hydro project; this uses water to create electricity like that in Page Az. It will be located on the Northern Edge of Black Mesa and build a reservoir at top and bottom of black mesa to turn turbine and generate electricity. There are three sites being proposed in Black Mesa North, East and South projects. The top reservoirs are near Kayenta, and lower reservoirs are near Chilchinbito and rough rock and into many farms. Concerning this project, 1. Excessive water use. 2. Water source is not identified. 3. Water Evaporation. 4. No Community Consultation/consent. 5. Land and wildlife Impacts. There are other chapters that would be highly affected, and these are the 5 keys concerns. All 3 projects combined would require 450,000-acre feet of water (126 trillion gallons initially.  Water source: Black Mesa Groundwater and or the Colorado River and San Juan River. 8 Reservoirs near Black Mesa totaling 35,720 acres additional 8000-acre feet of water is est to be used to keep project going. 30- 40 miles of BM North and south will be impacted. 450,000-acre feet = 126 trillion gallons over 2 million 55-gallon barrels. This is a visual of the amount of water to be used. BM Pumped Storage Project; Nature & Project First have already applied for prelim permits for the three projects from the Federal Energy Regulatory commission. This project is asking for federal permits before consulting with or obtaining the consent of impacted communities on and near black mesa pump storage project. Resolutions have been collected from 16 chapters.

Virgil Long – This project should be opposed and spoken on the cons of this type of project. How should this be brought back to the people.

Tsidi To’ii Chapter ✶ HC-61, Box K ✶ Winslow, Arizona 86047  
☎ (928) 686-3233 ✶ FAX TBA
E. **TT-06-08-2023** – SUPPORTING AND APPROVING THE PROPOSED LEGISLATION ENTITLED “AMENDMENT OF THE NAVAJO NATION COMMERCIAL TOBACCO TAX OF 2023” LED BY THE NAVAJO NATION AIR IS LIFE HEALTH COALITION.

**Motion:** Virgil Long    **Seconded:** Jeannie James    **App 13 Opp 0 Abs 5**

_Thomas Walker Jr_ – Introduced himself and continued with resolution. This resolution was presented at the Planning Meeting. Air is Life Coalition is based out of Winslow across from the old police station. Tobacco and its usage and the prevention and control policies in the county and state there are laws. There are taxes on these commercial tobacco products being sold. The taxes from these sales on the Navajo Nation are being collected. Tobacco control efforts through education and policies and taxes. This resolution will be presented to the Council Delegate and OPVP and have legislation changed. By increasing taxes, it becomes discouraging to buy tobacco products and kept away from the youth in our communities. The youth survey related are for at risk and conducted. 41% of our Navajo youth did use and do use commercial tobacco products. Prevention and deterrence from usage and if taxes are raised then the taxes can reduce the usage by our youth. So is asking for support in the passing of resolution. Tolani Lake did pass this resolution on Monday, so did Coalmine, Cameron and Teesto and 9 other chapters that passed with their support.

_Martha H_ – wanted resolution read.

_Mitzi Begay_ – read the resolution in its entirety.

_Al Pete_ – The NN has always sold tobacco. In 1990 the NN and State agreed to tax tobacco. The State agreed to collect all taxes and then send NN a percentage back to the nation. This resolution is to support the increase of tobacco tax and increase on the Navajo Nation to make taxes comparable to the state taxes and then agree on percentage. If the price does increase, then the youth won’t purchase products.

9. **Scholarship Assistance**

   A. Kimey Begay    TT-06-01-2023
      First generation college student and graduating 2023 from Fort Lewis College.

   B. Ida Yazzie    TT-06-02-2023

   C. Brennan Begaye    TT-06-03-2023
      Introduced himself. His father is Stenson Begaye Sr and will be attending ASU and going for his nursing degree.

      _Dendrick Jones, Choice Wireless_ – [dendrick.jones@ntuaw.com](mailto:dendrick.jones@ntuaw.com)
      Spoke on location of sale stores, location of fiber line equipment and can withstand cold weather and extreme heat. ACP Program, Affordable Connectivity Program Broadband. You will need to have ahcncs, ssi and snap are some qualifying programs. You can visit any store and sign up for broadband. You will need two forms of ID, SS card, Award Letter, and proof of residency. Based on income ACP Customer Eligibility can be reviewed and provided service. The federal income level did go up to $29,000.00 for more ppl to qualify for program. Affordable Connectivity Program, broadband, Modem outside of house to communicate to tower, connected to router and Wi-Fi
signal. Free Professional installation, technicians are certified and trained. Broadband Plans, what type of internet user are available, prices are $44.99 to $64.99.

Leonard Chee, IHS – absent

Alfred Pete, WIHCC Liaison
Medical services in the larger bldg and dental you are still required to wear masks. For the covid-19 test there be a separate drive through, respiratory clinic is also closed. Now you are still required to enter the main hospital but have masks for visits. Regarding Just Move It, this is to get residents out of their homes to join walks and there are incentives. This program is to motivate to help you start walking for better health and be consistent. Exercising is key to better health. Regarding Job Fair for Dilkon Healthcenter. All positions at the job fairs are for NON-medical positions. Hiring departments are environmental services, facilities mgmt., general services, nutrition and food services, security, and housing: all positions are for Dilkon medical facility. If all the paperwork is brought in and you qualify then you can be hired on the spot. The three dates are set for job fair June 15th at Winslow Chamber of Commerce, June 16th at Teesto Chapter and June 21st at Winslow Chamber of Commerce.

Lynn Huenanman – South Birdspring Resident Reports
Update on situation at South Birdspring flood area. Little Colorado River has the Long family that live in this area. The families were walking through water to get back to their homes and feed their livestock. The bridge is still blocked off with debris. The family has been trying to get attention for the NN to get numerous solutions. The council delegate is not helping or responded to help the Long family. ACOE is working on barriers to surround the homes in the affected homes. Some homes do have mold in one hogan of Ruth & Brittany Taylor. NHA is an option, but families are hesitant to accept but they are afraid they can’t pay the rent. Sarah Slim, Chris Stanton, ACOE, NDOT, they were to meet yesterday online and meet every two weeks regarding the flooding within 3 districts. Clearing out the river or putting in a levee or berm and raising the bridge are some of the solutions put forth. The family wants to prevent this type of flooding in the future. The meetings are not being communicated to the community. Nothing is happening in the area or community.

Virgil Long – Would like to recommend the chapter to put up a sign stating that they are on Navajo Nation land. They have no business on the Navajo Nation land. Maybe have NDOT put up a sign.

Theo Shorty-Navajo Uranium Workers Program, Shiprock Az
Years ago in 1990 Radiation Exposure Compensation Act, apology, those affected by Uranium exposure. This program allows to serve 300925 Navajos have been compensated for the affects of Uranium. There is an expiration date that is coming up quickly and there are still Navajos that were affected and may not know about the program. 1951-1958 nuclear bombs were being tested in New Mexico and the Arizona residents were affected with cancer. In 1962 in June – July in Arizona and you were affected with cancer then come to office and see if you qualify to be compensated from this organization. Shiprock office is too far so tomorrow June 15th the organization will be at Dilkon Chapter.

Sam McCabe asked if all those who got cancer can get compensated.
Theo Shorty stated only those who lived downwind from the area of the nuclear testing, and they were diagnosis for cancer then they are compensated as downwinder. If you worked in the Uranium mine the death certificate, then the spouse or children can be compensated. WIHCC should have an office RESEP clinic at various locations and they can refer patients to this organization.

**Martha H** – told a story about one of her patients that her father used to work in the uranium mine. The mom passed away from cancer post 1971.

**B. Council Delegate**
Casey Allen Johnson - absent

**C. Grazing Official**
**Steven Wagoner**
Friday, BQA Seminar will be held here at Tsidi To’ii Chapter, with Gray Farrell, extension agent from UofA. He teaches about livestock health and how shots should be given. Certification can be applied for and given for a price of $5.00. This certification allows you to give livestock shots, and how to care for your livestock. This month there were two homesite lease applicants and were approved. The other was where the home was already set and the homesite lease is just now being filled out.

**Virgil Long** – what time is the seminar on Friday, and do you have to be a grazing permit holder?
**Steven Wagoner** – time is 9 am dst and you don’t have to have a grazing permit and it is open to the public.

**Sam McCabe** – these seminars should be held more frequently.

**Steven Wagoner** – stated these seminars are held as often as possible. The medicine isn’t to be sold over the counter until June 30th regarding antibiotics. Vaccinations are ok to still purchase over the counter. USDA put these rules on NN livestock owners.

**D. Veteran Committee**
Richard David - absent

**E. Chapter Officials**
Mitzi Begay

**F. School Board Members**

**Little Singer Community School, Harry Wagoner**
School Board Reapportionment has 5 members only and other board members were told their terms would be ending. Now there is only Charter Board members and they work with community school, using buses, lunch and summer school.

Leupp Schools Inc - absent

**G. County Supervisors**
Angie Cody and/or Linda Curley, Coconino County Supervisor Rep
Fern Benally, Navajo County Supervisor - absent
