FYSA.....see below. Region resource manager supports using base ops funding.  
PS...according Susie Lara, we've always used base ops OMA funding.

Tom  
See the email below.  
I mention to Steve I would be using BASOP dollars and he has no issues with it.

Susie,

I have no problem with you realigning into VENQ to cover your conservation easement.

Thanks

Steve

Steve

Per our discussion on 14 August, about the garrison trying to obtain a conservation easement for the Upper San Pedro Project. The easement will secure water credits for the installation to continue to maintain biological opinion mandated numbers. Without this conservation easement, Ft Huachuca will not be able to meet the Biological Opinion compliance in the future years. I will be aligning BASOP dollars into VENQ (environmental conservation AMSCO) to try and make this happen. Do you any issues with Ft Huachuca doing this? It will be an agreement between both parties and not a service contract per say. I would appreciate a confirmation response from you.

Appreciate your support.
