

BIODIVERSITY ● Challenged Bush administration rollbacks to **Endangered Species Act** cutting science from decisions affecting imperiled species ● Furthered sweeping legal campaign to overturn politically tainted decisions under Bush that slashed protections for dozens of endangered species, and secured agreement to redo critical habitat designations for **19 species** ● Halted stocking of hatchery trout in California waters where sensitive **native fish and amphibians** are present ● Petitioned for Endangered Species Act protection for 32 species of Pacific Northwest **mollusks** after Bush administration axed forest protections in their habitat ● Fought Bush attempts to remove federal protections for – and allow increased gunning down of – **Rocky Mountains gray wolves** ● Filed suit to compel federal protections for **jaguar** habitat and recovery plan for species, in light of increased threats from new U.S.–Mexico border wall ● Called upon federal government to strengthen protections for imperiled **bat** species due to widespread die-off in U.S. Northeast, in connection with mysterious “white-nose syndrome”

CLIMATE ● Secured “threatened” listing for **polar bears** under Endangered Species Act, forcing Bush administration to significantly acknowledge global warming on world stage ● As result of Center lawsuit, compelled Bush administration’s release of long-overdue scientific assessment of climate change impacts in U.S. ● Prompted, through court order, Bush administration proposal to improve lax national fuel economy standards for passenger vehicles ● Petitioned to protect **Pacific walrus** under Endangered Species Act due to threats from global warming and oil and gas development ● Petitioned to protect **ringed, bearded, and spotted seals** under Endangered Species Act due to warming-caused Arctic sea-ice melt ● Secured proposal to protect seven species of **penguins** under Endangered Species Act ● Filed suit challenging Bush administration plan to sell off prime polar bear habitat in **Alaska’s Chukchi Sea** for oil and gas development ● Won court ruling, in California Environmental Quality Act case, affirming that developers must consider greenhouse gas emissions in land-use planning

OCEANS ● Won Endangered Species Act protection for **Cook Inlet beluga whale** after 10-year battle ● Gained protection for **North Pacific right whale** under the Endangered Species Act as species distinct from North Atlantic right whale, and compelled designation of 36,750 square miles of critical habitat ● Secured nearly 3,000 square miles of critical habitat for **elkhorn** and **staghorn corals** off coasts of Florida, Puerto Rico, and U.S. Virgin Islands ● Furthered campaign to compel Environmental Protection Agency and coastal states to address ocean acidification under Clean Water Act ● Won U.S. 9th Circuit Court of Appeals ruling halting Shell Oil exploration in **Beaufort Sea** after Bush administration rushed through permits without considering effects on **bowhead whale** and other Arctic life ● Halted U.S. Navy’s Undersea Warfare Exercises in Hawai’i’s waters pending additional measures to protect **marine mammals** from high-intensity sonar ● Petitioned to expand protected critical habitat for endangered **Hawaiian monk seals**, as global warming drives seals from threatened habitat on remote islands to coastal areas along more populated main islands

PUBLIC LANDS ● Won court order halting new uranium development adjacent to **Grand Canyon** National Park, spurring Congressional resolution and new legislation to shield Grand Canyon watersheds from new uranium development ● Blocked motorized crossings on lower **San Pedro River**, in world-renowned wildlife corridor, on land set aside for protecting **southwestern willow flycatcher** ● Mounted aggressive legal campaign to protect public lands and endangered species from new coal-fired power plants, coal leases, and oil shale and gas development in seven western states ● Stopped deadly project relocating **Mojave Desert tortoises** to make way for military-base expansion, and fought government attempts to severely weaken tortoises' recovery plan ● Successfully challenged Bush rule opening **Sierra Nevada's national forests** to more logging, and challenged administration's attempts to weaken wildlife protections across entire national forest system ● Ousted Sunrise Powerlink power line in Southern California from sensitive wildlands including **Anza-Borrego State Park**

URBAN WILDLANDS ● Blocked 2,600-acre sprawl development in San Diego-area habitat for threatened **California gnatcatcher** and endangered **Quino checkerspot butterfly**, winning lawsuit over public health and environmental concerns ● In landmark case, successfully challenged proposed resort near **Joshua Tree National Park** for failure to analyze project's greenhouse gas emissions ● Won court victory striking down approval for sprawl development on remote, undeveloped grasslands and chaparral at base of Southern California's **San Bernardino Mountains** ● Won appeals court ruling upholding strike-down of approval for controversial mountain subdivision at **Lake Arrowhead** in fire-prone forest wildland area ● Overturned approval for open-air sewage sludge compost facility in Hinkley, rural California town made famous for landmark water-contamination case depicted in *Erin Brockovich* ● Called for restoration of Pacifica's Sharp Park golf course to natural coastal wetland, initiating legal challenge against San Francisco for killing threatened **California red-legged frogs** and threatening endangered **San Francisco garter snakes**

INTERNATIONAL ● Under International Bird Initiative, secured U.S. Endangered Species Act listings for six of world's rarest birds: **black stilt** (New Zealand), **caerulean paradise-flycatcher** (Indonesia), **giant ibis** (Laos, Cambodia), **Gurney's pitta** (Burma, Thailand), **long-legged thicketbird** (Fiji), and **Socorro mockingbird** (Mexico) ● Won proposed protection for five rare Latin America native birds: **black-breasted puffleg**, **medium tree finch**, **Andean flamingo**, **Chilean woodstar**, and **St. Lucia forest thrush** ● Supported Ngobe people's fight before Inter-American Commission on Human Rights to block massive hydroelectric dam project, by U.S. utility AES, that threatens **La Amistad Biosphere Reserve**, World Heritage site shared by Panama and Costa Rica ● Assisted local activists in challenging questionable "eco"-development at Panama's Red Frog Beach ● Won court ruling finding U.S. Department of Defense in violation of National Historic Preservation Act and requiring it to consider impacts of new airbase on Japan's endangered **Okinawa dugong** ● Surpassed 200,000 downloads from *RareEarhtones.org*, in more than 150 countries around globe, of rare and endangered species ringtones

2008 STATEMENT OF ACTIVITIES for Year Ended 12/31/08

Totals include restricted and unrestricted support. Audited financial statements are available on request.

SUPPORT AND REVENUE

Foundation grants	\$ 1,584,900
Membership and donations	6,102,874
Legal returns	1,398,161
Contracts	56,734
Miscellaneous	3,335
Investment income	68,677
Total support and revenue	9,214,681

EXPENSES

Program services	
Biodiversity	1,067,762
Climate Law Institute	1,198,172
Public Lands	1,801,744
International	208,510
Oceans	540,741
Urban Wildlands	329,684
Total program services	5,146,613 (84%)

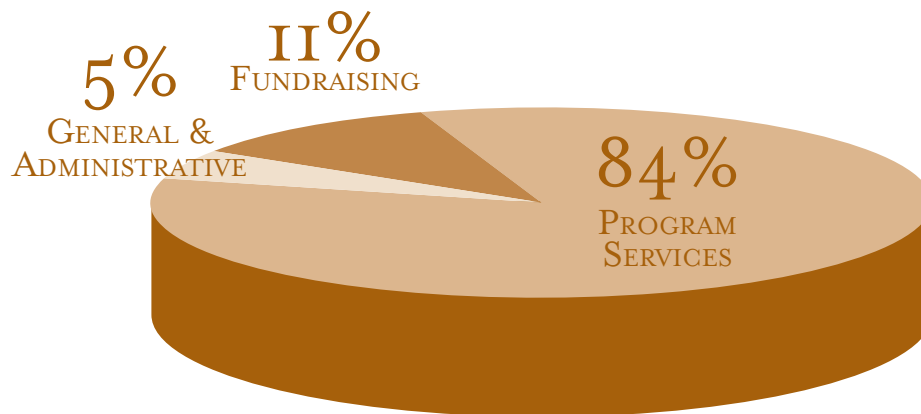

Supporting services

General and administrative	287,862 (5%)
Fundraising	672,848 (11%)
Total supporting services	960,710

Total expenses 6,107,323

Change in net assets	3,107,358
Net assets, beginning of year	3,355,007
Net assets, end of year	\$ 6,462,365

Despite the flagging economy in 2008, the Center's supporters contributed close to \$8 million to our critical efforts to protect imperiled wildlife and habitat. Our highly effective use of funds resulted in 84 percent of expenses going directly to our conservation programs, and earned us high marks from charity raters. Our long-term financial reserve fund grew to \$1.2 million, providing support for our future commitments, and we were thrilled to receive a \$3 million gift to support our new Climate Law Institute for the next five years.

OFFICERS: Kieran Suckling, *Executive Director*; Todd Schulke, *Treasurer*; Brent Hendricks, *Secretary*

BOARD OF DIRECTORS: Peter Galvin, Katherine A. Meyer, Marcey Olajos (Board Chair), Scott Power, Todd Schulke, Dr. Robin Silver

The Center for Biological Diversity works through science, law, and creative media to secure a future for all species, great or small, hovering on the brink of extinction.
