

REQUESTED AREAS FOR CRITICAL HABITAT

We hereby petition for designation of critical habitat for the Florida panther to include the entirety of the Primary Zone, the Secondary Zone and the Dispersal Zone as described and mapped in the Florida Panther Recovery Plan (2008) and Kautz (2006), and depicted below.

The total area described and depicted above consists of approximately 3,110,619 acres or 4,860 square miles.
